

LAW ENFORCEMENT

SWISS

LABEL

World Leader in Supplying Law Enforcement
Equipment And Training

DELTA FORCES

DELTA FORCES SWITZERLAND IS A SWISS DEFENSE & SECURITY GROUP THAT DESIGNS AND PROVIDES SOLUTIONS FOR UNIFORMS, EQUIPMENT AND SERVICES TO ADMINISTRATIONS AND COMPANIES ALL AROUND THE WORLD. DELTA FORCES OFFERS A GLOBAL SERVICE IN LINE WITH THE EXPECTATIONS OF OUR EXIGENT AND PRESTIGIOUS CUSTOMERS WORLDWIDE.

TODAY, THE EXPERTISE OF DELTA FORCES IS REFLECTED BY ITS HIGH-LEVEL CLOTHING, EQUIPMENT AND VEHICLE LINES AVAILABLE TO PROFESSIONALS WORLDWIDE. OTHER LINES SUCH AS CIVIL DEFENSE AND NON-LETHAL SECURITY EQUIPMENT HAVE MADE DELTA FORCES A SUPPLIER OF CHOICE FOR A MULTITUDE OF FOREIGN PUBLIC SERVICES.

CUSTOMIZATION IS ONE OF OUR BIG STRENGTHS INCLUDING EQUIPMENT EXCLUSIVELY DESIGNED AND PRODUCED FOR YOUR PURPOSES.

WHETHER YOU ARE IN CHARGE OF THE EQUIPMENT OF THE SECURITY FORCES, PEACEKEEPING OPERATIONS, OR THE PROTECTION OF POPULATIONS, AMONG OTHERS WE WILL PROVIDE YOU WITH THE PERFECT SOLUTION FOR YOUR SITUATION.

WE PROVIDE OUR SERVICES AS WELL TO CIVILIAN OR MILITARY ADMINISTRATIONS AS TO NON- GOVERNMENTAL ORGANIZATIONS AND PRIVATE COMPANIES.

TO STAY CLOSE TO ITS CLIENTS, DELTA FORCES HAS A WELL-ESTABLISHED INTERNATIONAL PRESENCE COVERING EXTENSIVE GEOGRAPHICAL AREA.

REGULATORY COMPLIANCES

DELTA FORCES WORKS IN OVER 60 COUNTRIES WORLDWIDE, AND OPERATES TO THE HIGHEST ETHICAL, SAFETY AND INTERNATIONAL REGULATORY STANDARDS. DELTA FORCES IS COMMITTED TO MAKING A POSITIVE CONTRIBUTION TO ALL THE COMMUNITIES AND COUNTRIES IN WHICH WE WORK.

▶ SAFE CITY SOLUTIONS

DFS5001

Delta Forces Ideal's Safe City solutions enable Municipal Authorities, Emergency Services, and Law Enforcement agencies to reduce crime, urban violence, vandalism and terror threats as well as increase awareness. Our solutions also assist Police, First Responders, and Municipal authorities to secure crowd control at protests, rallies, concerts, festivals, demonstrations, as well as border control. Delta Forces carries out a detailed evaluation to assess our client's weaknesses and needs in order to design and construct intelligent, conscious, and valuable solutions according to intelligence and operational specifications.

Delta Forces Safe City solutions include:

- ▶ Video Surveillance
- ▶ Alarms and Sensors
- ▶ Meteorology Solutions
- ▶ Unified Communication Systems
- ▶ Command & Control Centers
- ▶ Incident and Operations Management
- ▶ Emergency Call Centers
- ▶ Training
- ▶ Consulting
- ▶ LTE Communication

▶ PRIVATE LTE COMMUNICATION

DFS5067

Private LTE Communication System provides a private wireless solution for areas where cellphone coverage is available, as well as areas where coverage is unavailable or nonexistent. Designed to serve as immediate cellphone coverage for security forces, the Private LTE Communication System is available as a small or medium carry case, as well as wheeled case.

Fully standalone operation capability, the Private LTE Communication System is simply operated and uses Advanced LTE MIMO radio technology as well as 3G/4G/WIFI back haul. The advanced access control system has a fully redundant system and allows the sending and receiving of voice, video and files. The Private LTE Communication System is an effective basis of communication between Law Enforcement, Emergency Services, and Municipal Authorities.

▶ TRANSPORTATION

DFS3171

▶ WHEELED APC

DFS2116

▶ ARMORED UNDERCOVER VEHICLE

DFS2000

Provides B6 protection customized to all protection levels.

▶ RIGID-INFLATABLE BOAT (RIB)

DFS2003

Lightweight, high performance, high capacity boat constructed with a solid shaped hull and flexible tubes at the gunwale. The inflatable collar allows the vessel to maintain buoyancy during bad weather conditions. The RIB is used as a work boat to support larger ships, shore facilities or lifeboat and military crafts as a patrol boat or to transport troops between vessels or ashore.

▶ RIOT CONTROL BARRIER VEHICLE

DFS3000

Armored riot control vehicle with expandable crowd control barrier, easily deployed when necessary. Allows navigation through crowd.

▶ RIOT CONTROL SHIELD

DFS3001

The shield acts as protective gate a protective gate which can be lifted up to 3 meters, shielding control forces against violent riots and providing protection of up to 36 people and weapons.

▶ ULTIMATE RIOT CONTROL VEHICLE

DFS3003/ DFS3149

Riot control vehicles are built for non-lethal force during riots and are customized and designed according to client requirements.

▶ SURVEILLANCE & INTELLIGENCE VEHICLE

DFS3200

The SIV is a multi-purpose vehicle built to meet the operational needs of Law Enforcement Agencies. The vehicle enables in-the-field units to monitor public events and deliver a non-violent response at venues, and mass demonstrations.

Jammer Equipment

High performance VIP jammer, powered by battery power pack, DC/AC inverter and connected to operator workstation via RS232.

Operator Workstations

Powerful computer units equipped with mounted LCD monitors and peripheral devices suitable for up to 4 system operators.

Direction Finder

Measures the direction from which a received signal was transmitted by a mobile phone in the vicinity and locates device via triangulation calculation.

Target Detection

Scan any public area and collect mobile phone identification for all persons within 500m radius.

Personal Profiling

Collect personal information of mobile phone ID owners including photos, contacts, blogs and posts.

Intelligence Analytics

Analyse personal profiles, social network activity and online behavior for suspects in crowded areas.

▶ WATER RESTRAINT SYSTEM

DFS3004

A non-lethal, high-pressure water system, designed specifically for crowd control and dangerous inmate situations in correctional facilities.

▶ NON-LETHAL HAILING SYSTEM

DFS3006

This high-powered acoustic system is used for mass notification and communication during emergency evacuations, rescue operations, hostage negotiations, training and more.

▶ ANTI-RIOT GRENADE LAUNCHER - 15/30 ROUND

DFS3005 / DFS3199

High mobility with strong firing power, the launcher has the ability to fire many projectiles with a single percussion. Caliber: 38mm & 40mm

POLICE - TECH

▶ BODY PROTECTION

▶ RIOT HELMET

DFS3037

Affordable riot protection helmet with a black scratch resistant finish and flip-up visor. Made of polycarbonate, the face shield is clear with an optical grade finish.

▶ RADIO AND CAMERA RIOT HELMET HEAD SET

DFS3169

▶ ULTIMATE RIOT HELMET

DFS3044

High impact durable helmet provides protection to forehead and face. The helmet has a novel design, adopting ABS/PC material.

Features include:

- ▶ Anti-impact & Anti-penetrate ability.
- ▶ Strong vibration-proof.
- ▶ Leak resistant.

▶ UNIVERSAL VISOR WITH WIRE SCREEN

DFS3038

Steel grid offers maximum protection during violent riots.

▶ BALLISTIC HELMET & ANTI-RIOT VISOR

DFS3040

Ballistic helmet conforming to level IIIA with anti riot visor.

▶ BALLISTIC HELMET & VISOR

DFS3042

Ballistic helmet conforming to level IIIA with ballistic visor.

▶ UNIVERSAL VISOR

DFS3043

Universal fit face shield system that adapts to a wide range of helmets.

▶ LONG RIOT SHIELD

DFS3049

Hand-held body shield with ergonomic features made of clear polycarbonate for clear view & rubber padded handles.

▶ CAPTURE SHIELD

DFS3053

Hand-held body shield with ergonomic features made of clear polycarbonate for a clear view, with rubber padded handles. Designed for cell extraction and capture applications in close range.

▶ CONNECTABLE RIOT SHIELD

DFS3051

Hand-held body shield with clear polycarbonate for clear view with rubber padded handles.

Option to connect the shields together to create a unified protective wall.

▶ RIOT SHIELD

DFS3052

Hand-held body shield, ergonomic features. Made of clear polycarbonate for a clear view with rubber padded handles.

▶ ROUND RIOT SHIELD

DFS3156

Hand-held body shield with angular edges. Made of clear polycarbonate for a clear view with padded handles.

▶ INTERGRATED MASK AND RIOT HELMET

DFS3045

The mask can be fitted without removing the helmet, reducing vulnerability and injury during a riot.

▶ OPEN BREATHING SYSTEM

DFS2063

The open breathing system combines a protective mask with an advanced breathing apparatus to provide positive pressure for special operations. Developed to conquer unknown elements in threatening scenarios, this is the most advanced CBRN respiratory system on the market.

▶ ULTIMATE RIOT GAS MASK

DFS3172

Designed & approved for use as a non CBRN respiratory device. Provides protection in contaminated environments against gases, vapors and splashes of liquid chemicals.

▶ TPM 46

DFS3046

Full unobstructed vision panoramic face shield. Voice diaphragm to facilitate voice communication.

▶ NBC MASK

DFS3048

▶ HELICOPTER

DFS4160

▶ POLICE VEHICLE

DFS3159

▶ POLICE CARRIER VEHICLE

DFS3160

▶ POLICE MOTORCYCLE

DFS3163

▶ SEGWAY

DFS3162

▶ COMMAND & CONTROL SYSTEM

DFS3075

The platform provides the ability to define and personalize data on the system's map. Receives reports and graphical data according to specific operational requirements and preferences.

Main Advantages:

- ▶ Unified GIS based monitoring system
- ▶ On-line debriefing system
- ▶ Event and task management
- ▶ Full integration capability with 3rd party system
- Based on unique "Combat proven" knowledge
- ▶ Significantly cost effective
- ▶ A flexible and adjustable platform

▶ COMMAND & CONTROL ARMORED VEHICLE

DFS2011

Mission ready management vehicle, modified to meet the constraints of mobile dissemination of orders and alerts.

Optional Systems:

- ▶ 12 Passengers
- ▶ Electronic nightvision system
- ▶ Escape hatch
- ▶ 360° Gunport Coverage
- ▶ Advanced door lock mechanism
- ▶ Heavy-duty electronic winch
- ▶ Multi-layer Ballistic glass, no spall
- ▶ Removable wire mesh glass protection
- ▶ External View Cameras providing 360° F.O.V.
- ▶ Siren/PA system
- ▶ Emergency lights package

▶ RADIO SYSTEM

DFS4107

Professional 2-way radio.

▶ MEGAPHONE

DFS3087

▶ HEAVY DUTY HEADSET

DFS4189

▶ THROAT MICROPHONE

DFS2143

▶ IRIDIUM HANDSET

DFS3179

The iridium handset satellite phone is compact, light and easy to use, but with industrial-grade ruggedness. You can enjoy your handset ANYWHERE on the globe.

▶ PUSH-TO-TALK IRIDIUM SATELLITE PHONE

DFS4207

Designed for global use, even when access to fixed or mobile telecoms infrastructure is limited or non-existent. The PTT uses the Iridium satellite network for worldwide connectivity. Provides secure one-to-many voice and data connectivity. Ruggedly engineered to support high intensity users in the harshest conditions.

▶ APOLLO

DFS3302

A vehicle location unit with full fleet management capabilities, combines GSM & satellite technologies to allow constant communication around the world.

▶ VEHICLE SATELLITE

DFS4208

A vehicle mounted satellite antenna used for military and emergency-services to provide satellite communication on the move.

▶ BGAN LAND/VEHICLE SATELLITES

DFS4209

BGAN service provides simultaneous voice and broadband data communications globally from lightweight satellite terminals. Connect the BGAN terminal to a portable device to access the internet for web browsing, email, or Streaming IP rates to meet all your data, voice and video needs.

▶ SATELLITE PERSONAL TRACKING DEVICE

DFS4212

A hand-held, global, two-way satellite messaging and personal tracking device, which includes a distress button.

▶ IRIDIUM ANYWHERE

DFS4210

Turn your smartphone into a satellite phone using the Iridium Anywhere device which enables your smartphone to work anywhere on the planet. Supports daily functions including social networking, email use, SMS, GPS tracking, smartphone applications and more.

▶ SATELLITE TRACK AND TRACE

DFS4211

An advanced satellite-based personal C4I device can provide track & trace capability, two-way messaging, distress and monitor.

▶ ELECTRONIC ALCOHOL TEST

DFS3076

A compact, reusable electronic alcohol test used to detect alcohol levels of a driver. Easy to use, the driver must simply blow on the disposable tube to get immediate results.

▶ DRUG DETECTION DEVICES

DFS3176

The detection device is flexible and easy to use with a wide range of applications. This device yields results quickly.

▶ LIGHTBAR

DFS3161

▶ CHEMICAL ALCOHOL TEST

DFS3077

Disposable chemical alcohol test. Used to discern alcohol levels of a driver. Easy to use, simply blow. Immediate results.

▶ SPEED DETECTION DEVICES

DFS3078

An accurate speed gun used to enforce speed limits. Allows the detection of an individual's vehicle speed in a stream of traffic within seconds.

ROAD BLOCK

▶ ROAD FLARE

DFS3083

Indicates locations or marks a territory. Easily deployed and lightweight, the flares can be seen at long distance. Ideal for all outdoor environments.

▶ TRAPEZE

DFS3080

The Trapeze is part of a full roadblock check point system. Enables officials to direct traffic safely.

▶ BEACON KIT

DFS3081

Powerful LED waterproof beacons are easily deployed and may be used to create a visible roadblock. Can be charged by a 12V car battery.

▶ TRIPLE WARNING ROAD SIGN

DFS3079

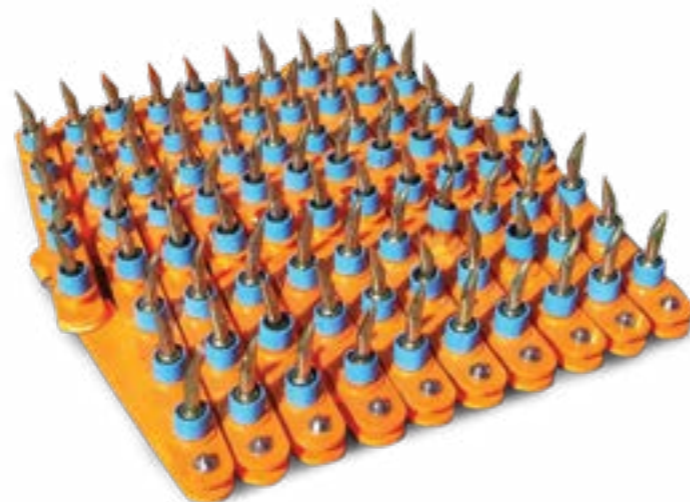

Hazard warning sign used day or night. Highly visible reflective faces. Can be used as a beacon at night. Collapsible & easy to deploy. Lightweight.

▶ SPIKE ROAD BLOCK

DFS3082

Road spike system has a smart self release mechanism for each spike. A spike cannot be detached from the barrier unless a car wheel exerts great pressure. With its simple spike detachment technique, the system is back in operation minutes after use.

SWISS
+
LABEL

PERSONAL EQUIPMENT

▶ UNIFORM

DFS3084

A variety of traditional 5 crease, police-style uniforms. Available in a wide variety of materials, colors and patterns, according to customer specifications.

▶ JACKET

DFS3085

Law Enforcement apparel and equipment available. Designed for comfort and durability and suitable for everyday use.

▶ PROTECTIVE BALLISTIC VEST

DFS4111

The vest is complete with magazine pouches and provides protection to the upper body.

▶ ANTI-STAB PROTECTION VEST

DFS3182

▶ BALLISTIC GOGGLES

DFS2083

Lightweight eye protection offers a unique combination of high level protection and an unrestricted field of view.

▶ PROTECTIVE GLASSES

DFS3086

Revolutionary approach to ballistic eyewear protection with anti-fog/anti-scratch lenses.

BATONS

▶ DUTY BELT

DFS3090

Tactical belt for patrol officers. Pouches for all accessories such as: firearm, magazine, expandable baton, handcuffs etc.

HANDCUFFS POUCH
DFS3091

BATON HOLDER
DFS3092

RADIO POUCH
DFS3093

FLASHLIGHT POUCH
DFS3094

TELESCOPIC BATON POUCH
DFS3095

MAGAZINE POUCHES
DFS3096

PISTOL HOLSTER
DFS3097

MULTI TOOL
DFS3088

▶ EXPANDABLE TONFA

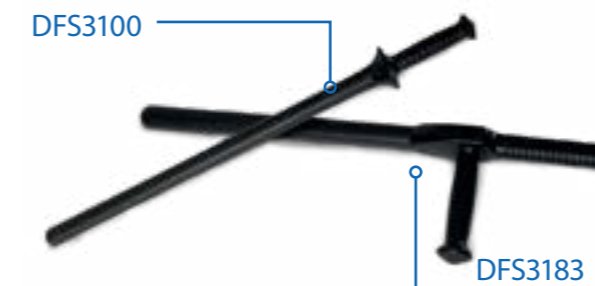

DFS3098

Made from high quality duralumin. Compact when closed, no obstruction of movement. Easily expandable and may be drawn out rapidly to full length.

▶ BATON & TONFA

Side handle baton. Made of polycarbonate.

▶ WOODEN BATON

DFS3102

▶ TELESCOPIC BATON WITH FLASH LIGHT

DFS3101

▶ TELESCOPIC BATON

DFS3103

The solid steel telescopic expandable baton may be carried on a belt.

▶ TRAINING BATON

DFS3099

The training baton allows the dynamic simulation of street confrontations. A safe training environment may be maintained while allowing full contact strikes in a controlled setting.

▶ SPEED CUFFS

DFS3104

▶ HANDCUFFS

DFS3105

Double hinged high security handcuffs with double lock feature.

▶ HIGH SECURITY CUFFS

DFS3106

Manufactured to meet the NIJ's standards for workmanship and mechanical strength.

▶ HINGED HANDCUFFS

DFS3107

Stainless high-grade steel.

▶ PLASTIC RESTRAINT KIT

DFS3109

The plastic restraint kit provides 2-loop disposable restraints, a durable web case, personal cutter, and marker.

▶ MULTI-COLOR LED FLASHLIGHT

DFS3150

Waterproof in a depth of 20 meters. Works at temperature from -50 degree to 62 degree Celsius.

▶ PERSONAL FLASH LIGHT

DFS4124

Tactical LED flashlight kit.

▶ BALLOON LIGHT

DFS1079

Metal halide light, the output is five times more powerful than an equivalent traditional halogen light.

▶ HEAD MOUNTABLE FLASHLIGHT

DFS6003

Head lamp lighting system used for rescue activities.

▶ PORTABLE 360 LIGHTING AREA

DFS1081

Provides a powerful 12 degree spotlight or a 360 degree scene light. Ideal for accident & crime scenes, perimeter lighting, command post on-scene size up, forensic & nighttime photography.

UAV

▶ ADVANCED LIGHT-WEIGHT UAV SYSTEM

DFS8010

A fully autonomous, Light-weight UAV. Provides real-time day and night video stream via the Ground Control Station. Ideal for fast deployment & turnaround time. High payload stability.

▶ ADVANCED HIGH PERFORMANCE UAV SYSTEM

DFS8040

Equipped with a gimbaled, stabilized high performance EO & IR payload that is interchangeable with other sensors that are up to 3kg.

BORDER
 POLICE

▶ SURVEILLANCE AEROSTAT

DFS2005

Balloon Observation System with Day/Night vision cameras with self stabilization and real-time video transmission.

- ▶ Target Acquisition
- ▶ Border & Coastal Surveillance
- ▶ Intelligence
- ▶ Search & Rescue
- ▶ Riot Control

▶ MID RANGE UAV

DFS3202

The UAV is an electrically propelled platform that provides real-time visual intelligence with a 50km communication range. Payload with continuous optical zoom high resolution day camera, IR cooled 3-5um night sensor with continuous optical zoom and Laser pointer. The UAV's typical missions are target acquisition, border surveillance, force protection, frigate defense and the protection of critical infrastructures.

▶ FAST DEPLOYMENT OBSERVATION WIRELESS SYSTEM

DFS2007

Ideal for observational operations in remote enemy territories and rural areas where a car or balloon cannot be deployed.

▶ OBSERVATION VEHICLE

DFS2006

The observation system is positioned on the roof of the vehicle for specific missions. Long distance PTZ.

▶ COMPASS BINOCULARS

DFS3116

Impressive light transmission for surveillance, navigation & other low-light applications.

▶ NIGHT VISION GOGGLES

DFS3121

The most widely recognized and dependable U.S. military night vision goggle system available. Combat proven with rugged, ergonomic design. Available with thermal technology.

▶ COMBINED NIGHT & THERMAL VISION BINOCULAR

DFS4213

This binocular has a combination of thermal and high-sensitive night vision channels and is a highly effective tool both combined day and night observation in any climate or terrain.

▶ LONG RANGE BINOCULAR

DFS3118

Resilient, waterproof, shock resistant and rubber armored. Although light enough to be held a tripod mount is included.

▶ NIGHT VISION MONOCULAR

DFS3119

Hand-held, headmounted for hands free use or weapon mounted. Integrated IR illuminator enhances ability to read maps in confined areas with no light.

▶ TLG

DFS3167

Designed to be used with (or without) night vision devices to engage enemy targets at night. The TLG is a dual beam, weapon mounted. IR and red aiming laser activated by two integral On/Off switches or by a remote pressure switch. The TLG meets military standards and environmental specifications.

▶ TAROS

DFS2086

The x4 prism scope is a resilient and compact "close quarter" optic. The waterproof, shockproof, and fog-proof scope uses multi-coated lenses to adjust brightness and deploy see through capabilities.

▶ DAY SIGHT

DFS2103

This sight provides instant all-light capabilities. Battle proven, easy to use it is both accurate and reliable.

▶ RED-DOT SIGHT

DFS3168

The Red-Dot Sight is a MILSPEC water-resistant and shockproof sight which mounts perfectly on a Picatinny rail and is efficient and comfortable for every shooter's needs.

▶ NIGHT VISION RIFLE SCOPE X4 OR X6

DFS2027

Provides excellent observation, target acquisition and aiming capabilities at night. Rugged, lightweight. Can be mounted on any weapon with M1913 rail, and withstand recoil from fully automatic weapons

▶ THERMAL SIGHT

TA2222

High-end thermal sight is an innovative high-precision all-terrain weapon sighting system. It combines sophisticated technologies to create a clear and distinct thermal image.

▶ THERMAL MONOCULAR

TA2220

High-end thermal monocular for all military needs. The high-precision all-terrain system combines the most sophisticated technologies to form a clear and distinct thermal image.

▶ LASER-AUDIO SURVEILLANCE

DFS2019

The laser-audio surveillance system operates by transmitting an invisible infra-red beam to the window of the targeted room. The system allows the operator to execute undetectable laser surveillance operation from outside a building up 500 meters.

▶ ACTIVE INTERCEPTION

DFS2014

An active system proven to be completely undetectable by the operator or target. No additional SIM to be inserted in the system. Subscribers are charged for calls which are billed by the M.O. billing system.

▶ INTERCEPTION SYSTEM

DFS2012

Fast and reliable interception, interrogation and jamming of GSM traffic interception for incoming and outgoing encrypted GSM communication in real-time, without cooperation with network operators

- ▶ Interception for multiple concurrent duplex calls
- ▶ Simultaneous interception of multiple operators
- ▶ Extracting of phone identities inc. phone numbers
- ▶ Invisible and undetectable operation

▶ STEALTH CELL PHONE

DFS3129

Allows undetected video/audio recording for undercover operations. Easy to use, with standard cell phone functions still available.

▶ HELMET CAMERA

DFS1030

Exclusively designed for direct recording and archiving of training scenarios and/or live operations, the mountable helmet camera is lightweight and durable.

▶ NIGHT VISION CAMERA ADAPTOR

DFS3131

Advanced night vision system designed for night time observations, photography, and video recording. Superior performance and image clarity.

▶ CHEST CAMERA

DFS3132

HD digital photos, video & audio recording, infrared night vision for night recording and playback at the push of a button. Supports audio & video recording and digital photos simultaneously.

▶ SPY SUNGLASSES CAMERA

DFS3130

Hidden video camera recorder with MP3 payer TF card slot. Mini DVD CCTV, hot spy sunglasses camera with MPS.

▶ VIDEO SCOPE

DFS1029

A precision fiber optic inspection tool utilizing a two way, articulating probe for inspection of enclosed objects. The non-conductive tip makes it ideal for inspection of volatile liquids.

▶ SEE THROUGH WALL HUMAN SENSOR

DFS2020

Detects humans behind walls and solid obstacles. Features: One handed operation. 10 hour battery time. Detection range of human in a 70 degree sector: 5-10 m behind an interior wall, 25m without any obstacles.

▶ SOCIAL MEDIA ANALYTICS

The analytics suite is a versatile, cloud-based platform that enables organizations to gather a wide range of information including Internet account details, nicknames, phone numbers, addresses, document files, images and videos.

These solutions support the complete OSINT workflow cycle including collection, processing, analysis and reporting of OSINT web sources.

▶ FEATURE HIGHLIGHTS

■ Phone Number Detection:

Access personal details from web source information based on mobile phone data.

■ Powerful Query Engine:

Identify any MSISDN number sent from operator via a secure and non-traceable proxy.

■ Multi-Layer Security:

Includes built-in, industry standard security mechanisms to protect integrity and reliability of intercepted data.

■ External Data Sources:

Import data from any external data repository to enhance operational effectiveness.

▶ SOLUTION BENEFITS

■ Capture Device ID:

Collect phone number and target identity such as Facebook and Gmail accounts.

■ Personal Mobile Data:

Generate reports for specific targets or any other target identity in the system.

■ Analysis Tools:

Find social connections between targets and other system entities.

■ Alerts & Notifications:

Generate real-time alerts about suspicious behavior and activities.

▶ SEARCH & RESCUE

- ▶ Find missing persons alive whether in forests, under rubble or ruins etc., by following scent carried in the air.
- ▶ Trained to ignore all interferences in their working area, such as scattered food, working rescuers, or rescue equipment.
- ▶ Dogs work equally well in the dark, using their sense of smell and hearing abilities to the maximum.
- ▶ 1 dog is equivalent to approx. 20 searchers.

▶ GUARD

Trained for protection against unwanted / unexpected people or animals. Trained to bark and alert their owners of an intruder's presence. Barking also acts as a deterrent against potential intruders.

PRISONS

PRISON THREATS

Drone incursions are a major threat to prisons today. Drones are used to smuggle narcotics, weapons and cellphones to prisoners inside.

ANTI-DRONE MODULAR ACTIVE AND PASSIVE SYSTEM

Delta Forces is promoting the SKYLOCK anti-drone system, a complete protective anti-drone shield consisting of a Passive & Strategic system that includes:

- **Detection:** The radar system recognises drones from 3.5km.
- **Acquisition:** The Optic system recognises drones Day/Night from up to 2.5km.
- **Active neutralization:** Blocks the RF/GPS signal from up to 2.5km.
- **Laser Burner:** Brings down or destroys the drone at 800m.

DETECTION PLATFORM

The detection platform is a technical surveillance counter measure solution, which enables organizations to identify and monitor a wide range of wireless transmitters, mobile phones, Wi-Fi devices, cameras and other RF transmitter devices.

The platform's solution ensures the integrity of secure areas and is suitable for deployment in critical facilities, government offices and prison. The detection solutions are based on passive detection and identify unauthorized communication without transmitting signals or causing interference to cell phone calls.

FEATURE HIGHLIGHTS

- **Digital Signal Processing:** High receiver sensitivity and detection of extremely weak signals without any loss in processing speed.
- **Fast and Simple Operation:** Intuitive user interface and navigation controls, suitable for use without reading the manual.
- **Advanced DF Capabilities:** Increase DF accuracy and immunity to reflection with the upgrade kit.
- **Portable and Compact:** Versatile and easy to carry unit with remote operation capabilities via a standard LAN interface.

SOLUTION BENEFITS

- **Sensor Types:** Supports most types of sensors types and configurations to protect any secure zone.
- **Pulse Signals:** Generates a pulse signal to detect the polarity, amplitude, frequency and electronic signature of unauthorized idle devices.
- **Directional Finding (DF):** Detects the direction of unauthorized transmitters within a secure area.
- **Dual Mode Operation:** Use in standalone mode for covert operations or deploy in fixed mode with other Delta Forces products.

UNDERGROUND PROTECTION SENSOR SYSTEM

DFS5058

Seismic geoponic sensor system for underground protection. Answers complex underground intrusion scenarios, including: digging, tunneling, walking, crawling and more.

VIBRATION SENSOR SYSTEM

DFS5059

Vibration sensor based smart fence solution solves complex intrusion scenarios including: climbing, cutting, sabotage and more. Easy and swift deployment on all fence types, walls and concertina coils.

TACTICAL WI-FI INTERCEPTION

WI-FI sniffing system, intercepts and captures data from laptops, cellphones and tablets over WI-FI at any hot-spot location.

IR & MW POLE SYSTEM

DFS5062

Combined IR & microwave for virtual protection. Ideal for private residences as a 2nd line of detection. Tailor-made assimilation as lighting post.

PERIMETER INTERCEPTION

DFS5064

Cellular observation system that can detect, identify, locate and track cellular devices along any perimeter line. Ideal for small, unmanned and remote sites, connected to local or distanced C&C center. Can be operated as one controller, one sensor line, or multi sensors for long perimeter lines. All weather operation, zero maintenance.

▶ UNDER VEHICLE INSPECTION SYSTEM

DFS3155

Provides a security solution for inspecting the bottom part of the vehicle, the chassis. Inspect vehicles entering sensitive security areas: government offices, embassies, fuel & gas sites, border checkpoints and prison compounds.

▶ HYDRAULIC BURIED BARRIER

DFS3154

The barrier blocks the width of the road and stops access to all vehicle types.

▶ PNEUMATIC BOLLARDS

DFS3153

The bollard is pneumatically operated. Designed to stop access to all vehicle types.

▶ MODULAR ARMOUR PROTECTION SYSTEM

DFS3191

Flat-pack lightweight rapid deployment ballistic Check Point Protector that can be made ready in under 5 minutes and easily packed away within the back of a vehicle for re-deployment and protection against AK47 - 7.62mm rounds.

▶ X-RAY CARGO INSPECTION

DFS3201

Heavy duty converted X-ray scanner designed to screen cargo such as large parcels, trunks, crates and pallets to detect concealed weapons, narcotics, explosives and verify customs manifests. Uses: Ports of entry, warehouses, airports, government facilities customs & ships.

▶ PORTABLE X-RAY DEVICE

DFS3158

Compact, lightweight, ergonomic X-ray scanner, ideal for inspecting luggage, mailbags, bins and parcels.

▶ DOME CAMERA

DFS3193

High performance camera integrates lenses, motorized drives, control systems and housings with newly developed technologies to provide high precision surveillance.

▶ X-RAY LUGGAGE INSPECTION

DFS1018

Designed for screening cargo and luggage to detect concealed weapons, explosives, contraband or manifest fraud at airports, ports, courts, customs, checkpoints etc.

▶ PRISONS JAMMER

DFS8031

A highly efficient specialized jamming system, designed for permanent indoor installation. Suitable for small or large locations such as prisons, palaces, military bases, banks, and public venues.

▶ CELLULAR DEVICE LOCATOR

DFS3195

Designed to locate hidden cellular devices in a tactical range. Suitable for hand-held operations both inside and outside buildings and vehicles, this device is used for intercepting mobile phone traffic and movement of mobile phone users.

▶ POLICE HORSE

DFS3135

▶ HORSE TRANSPORTATION

DFS3136

Horse transportation vehicle/trailer. Can be "tailor made" for the client needs.

▶ SMART CELLULAR JAMMING FOR PRISONS

DFS1004

The jamming system is used within prison facilities to prevent illegal use of cellular phones smuggled in to the prison perimeters. Protects citizens on the outside from being harassed by prisoners.

▶ HORSE VISOR

DFS3137

▶ HORSE PROTECTION

DFS3138

▶ UNIFORM

DFS3139

A variety of traditional 5 crease for law enforcement style uniforms. Available in a wide variety of materials, colours and patterns, according to customer specifications.

▶ MULTI PURPOSE TACTICAL VEST

DFS3152

Designed to carry different types of accessories. One size fits all.

▶ POLICE HORSE BRIDLE

DFS3142

▶ BOOTS

DFS3140

▶ HELMET

DFS3141

Protective helmet, provides protection to the head and face. One size fits all.

▶ WATER RESERVOIR

DFS3151

▶ DOCUCHECK

DFS3301

The Docucheck uses advanced software to analyze travel documents and currency for forgeries and alterations. This user-friendly tool allows the operator to evaluate an assortment of documents and banknotes in contrast to a database of 180 documents for comparison. The Docucheck functions include basic photo editing, image flip and producing negative images in order to quickly process and analyze images.

The Docucheck is built upon 13 different light sources installed via 32 lamps. The lamps are a combination of LED, halogen and fluorescent lights which reduce maintenance and longer usage time. The camera has a 32 time optic zoom with full High Definition (HD) resolution and 12 filter options.

Despite being intricately built, the Docucheck is cost-effective and greatly capable of authenticating documents and banknotes.

▶ FORENSIC VEHICLE

DFS

The Delta Forces Forensic vehicles are customized to meet the special requirements of the crime scene investigators. The vehicle enables the Forensic team to arrive at the crime scene, collect, analyze and document evidence gathered, on the spot, enabling them to preserve evidence and speed up the investigative process.
